### PROFILE

A highly committed, consistent, and resilient individual with a drive to create exceptional user experiences through the use of HTML, CSS, Javascript, ReactJs, VueJs, and other technologies seeking a position to leverage strong technical and problem-solving skills and extensive web development knowledge to achieve organizational efficiency, reduce page load speeds, and optimize user interfaces

### WORK EXPERIENCE

#### Querifier LLC

Frontend Developer

Querifier LLC | Abuja, Nigeria.

January 2024

- Collaborated with a team of developers to build a document validation and evaluation system with AI functionalities using Vue.js and related libraries.
- Designed and implemented user interface features for document validation, evaluation, and AI integration.
- Ensured responsiveness and optimized performance of the application for a seamless user experience.
- Successfully delivered the project within established timelines, showcasing strong project management skills and commitment to meeting client requirements.

#### INsure

Frontend Developer

TIIDELab Initiative | Abuja, Nigeria.

June 2023 - Dec 2023

- Played a pivotal role in the development and implementation of INsure, a cutting-edge insurance sales management application designed to streamline lead tracking and enhance the efficiency of insurance agents.
- Leveraged expertise in front-end technologies, including HTML, CSS, JavaScript, and React to create an intuitive and visually appealing user interface, contributing significantly to a positive user experience.
- Demonstrated a keen understanding of industry best practices, adhering to coding standards, and implementing responsive design principles to guarantee a consistent and engaging experience across various devices.
- Successfully delivered the project within established timelines, showcasing strong project management skills and commitment to meeting client requirements.
